BBAPL MONTHLY NEWSLETTER

MARCH 2026

“Trusted by government bodies, industry leaders, and emerging businesses, BBAPL delivers proven expertise.”

In March, BBAPL was trusted by DIC, NCR, the CA Association President, civil contractors, and Hotel Atmosphere Rishikesh representatives.

Client meetings delivered strong outcomes, with BBAPL standing out beyond conventional engineering.

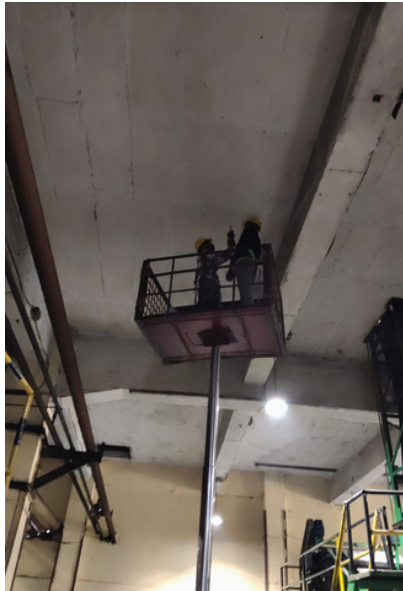

- **Material testing and site evaluations conducted**
- **Design, stability, and technical support delivered**
- **Projects executed in PAN India**
- **Digital presence strengthened through content and outreach**

**30+ Projects | Site
Visits | Designs
Delivered**

**25+ Testing & NDT
Assignments | Multi-Sector
Projects | NABL Lab
Operations**

**86.5K Google
impressions
generating 708 organic

MATERIAL TESTING PERFORMANCE

OPERATIONAL SNAPSHOT

- Project Covered: 12+
- Testing Activities Logged: 60+
- Laboratory Tests Conducted: 40+
- Active Clients Served: 10+
- Client Types: Industrial, Government & Infrastructure
- Cities Covered: Gwalior, Malanpur, Laksar (Haridwar), Banmore, Shivpuri, Morena, Bhopal

150+ ENGINEERING HOURS LOGGED

Including laboratory testing, field/NDT testing, soil investigation, mix design validation, cube testing, report preparation & NABL compliance documentation.

STRUCTURAL DESIGN HIGHLIGHTS

KEY ENGAGEMENTS

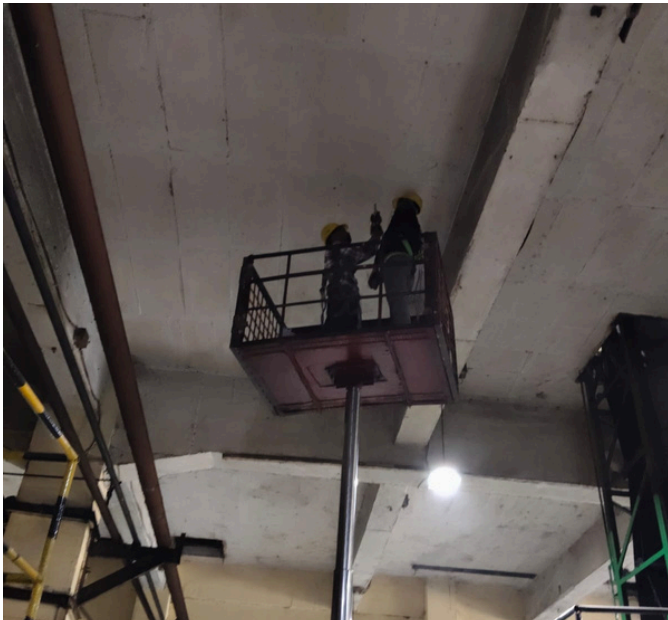

- 30+ Structural Design & Engineering Projects
- Major Industrial Clients: JK Tyre, Teva, Tri India, CG Power, JBM, Godrej
- Key Activities: NDT Assessments, Structural Design, Tank/Pond Development, Industrial Shed Design, Load Capacity Analysis
- Project Coverage: Site Assessments, Design Execution, Drawing Submissions, Stability Evaluations
- Operational Locations: Gwalior, Banmore, Malanpur, Haridwar, Bhopal

STRUCTURAL ENGINEERING & ANALYSIS

Execution across 30+ projects, covering NDT, site inspections, structural design, and engineering evaluations for safe and compliant delivery.

Material Testing & Quality Assurance

NON DESTRUCTIVE TESTING AT STERLING AGRO INDUSTRIES LTD.

BBAPL performed Non-Destructive Testing at Sterling Agro Industries Ltd. to ensure structural safety.

Non-Destructive Testing ensures structural safety and detects defects without damaging the material.

BBAPL
EST.1982

Material Testing & Quality Assurance

MATERIAL TESTING (DEPT-PWD, BHOPAL)

BBAPL conducted WMM material testing for the PWD Bhopal project to ensure quality and compliance.

Accurate material testing ensures strength, durability, and compliance.

Material Testing & Quality Assurance

CUBE TESTING FOR MANJARI FOUNDATION

BBAPL conducted cube testing for Manjari Foundation to verify concrete strength and ensure quality compliance.

Cube testing ensures concrete strength meets safety and design requirements.

INTEGRATED DESIGN CONFIDENCE

**TESTING → ANALYSIS → DESIGN
VALIDATION**

Data-Backed Structural Design

Test results and historical data directly informed load assumptions, safety margins, strengthening needs, and compliance decisions.

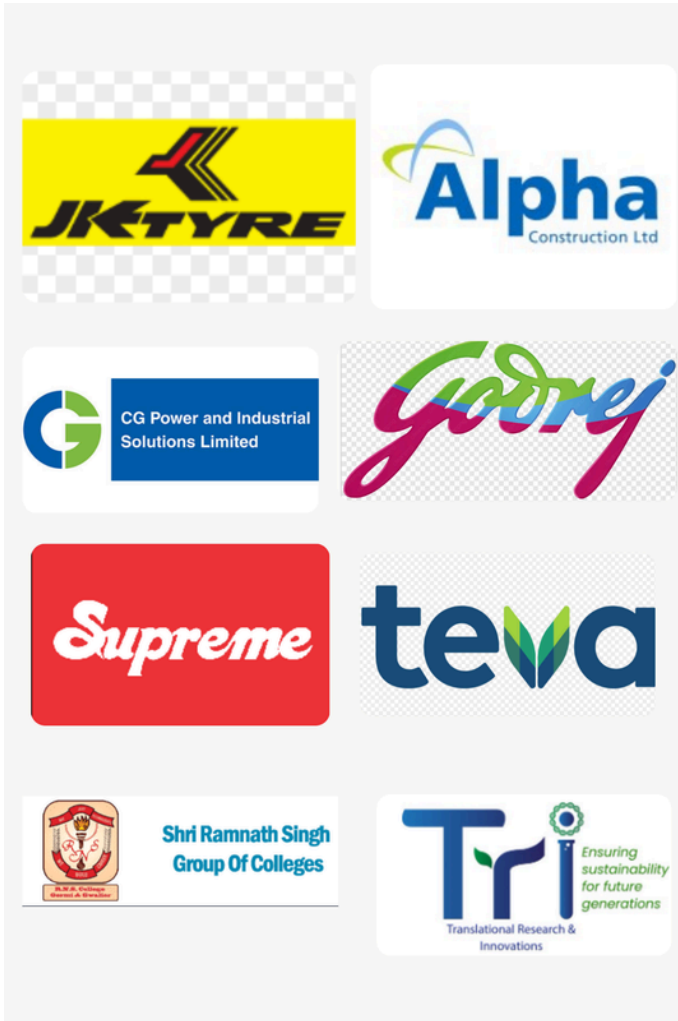

Outcome

Reduced design uncertainty and improved long-term structural reliability across industrial and infrastructure projects.

MAJOR PROJECTS EXECUTED BY BBAPL: MARCH 2026

Industrial Projects

J.K. Tyre & Industries Ltd., CG Power Industrial Solutions Ltd., Sterling Agro Industries Ltd., and Tri India (Piperseva) across Laksar, Banmore, and Malanpur.

Government Projects

BBAPL worked on DRDO Gwalior, WRD Shivpuri, PWD Bhopal, Municipal Corporation Gwalior, Nagar Nigam Gwalior, and the Anicut project in Morena.

Residential Projects

BBAPL executed structural engineering services at Gulab Chand Resham Chand, Gwalior.

Compliance & Safety

All projects executed with strict adherence to safety norms, statutory requirements, documentation standards, and approved engineering practices.

Key Approvals Required Before Starting Construction in India

The construction industry in India is developing very fast, projected to grow to USD 1.10 trillion in 2031 with a CAGR of 6.87% ([Mordor Intelligence](#)). However, with this increase, numerous projects in India remain barren every year, not due...

QUALITY, COMPLIANCE & INTERNAL PROGRESS

NABL-aligned testing protocols with regular proficiency evaluations to ensure accuracy and reliability

Strict equipment review and calibration documentation to maintain lab precision and compliance

Ongoing alignment with testing, reporting, and quality standards for consistent, audit-ready outcomes

LOOKING AHEAD: APRIL 2026

In April 2026, BBAPL will further strengthen its leadership in structural assessment, stability certification, and industrial testing, supporting government and industrial projects with advanced, code-compliant engineering solutions.

Our focus will remain on enhancing design validation and regulatory compliance, driving safer, more resilient, and future-ready infrastructure.
