BBAPL MONTHLY NEWSLETTER

MAY 2026

“Trusted by government bodies, industry leaders, and emerging businesses, BBAPL delivers proven expertise.”

In May, Bhargava Building Atelier Private Limited (BBAPL) achieved significant progress in soil testing, structural design, and key client engagements.

These outcomes reflect the team’s technical expertise, disciplined execution, and strong coordination throughout the month.

- **Material testing and site evaluations conducted**
- **Design, stability, and technical support delivered**
- **Projects executed in PAN India**
- **Digital presence strengthened through content and outreach**

**33 Active
Projects |
Design, Surveys
& Infrastructure**

**63 Technical Executions | 15 Soil
Testing Assignments | 5 NDT
Assessments | 6 Geotechnical
Reports Delivered**

**86.3K Google

MATERIAL TESTING PERFORMANCE

OPERATIONAL SNAPSHOT

- Project Covered: 16+
- Testing Activities Logged: 63+
- Laboratory Tests Conducted: 15+
- Active Clients Served: 5
- Geotechnical Reports Delivered: 6
- Active Client Engagements: 16
- Client Types: Industrial, Commercial, Residential, Government & Irrigation
- Cities Covered: Gwalior, Morena, Malanpur, Jhansi, Mandideep

213+ ENGINEERING HOURS LOGGED

Including soil investigation, laboratory testing, NDT assessments, mix design validation, report preparation, and NABL laboratory documentation.

STRUCTURAL DESIGN HIGHLIGHTS

KEY ENGAGEMENTS

- **33 Active Engineering & Infrastructure Assignments**
- **Key Clients: Supreme Industries, JK Tyre, CG Power, Teva, Tri India, Godrej, Cadbury & Nova**
- **Core Activities: Structural Design, Drain Surveys, Stability Assessment & Industrial Infrastructure Development**
- **Project Scope: Plant Expansion, Roads, Drainage Systems, Sheds, Tanks, Solar Load Assessment & Structural Audits**
- **Operational Locations: Gwalior, Malanpur, Banmore, Bhopal, Haridwar & Sewagram**

STRUCTURAL ENGINEERING & ANALYSIS

33 active assignments involving structural design, plant development, drainage planning, stability assessments, industrial infrastructure upgrades and execution support for leading manufacturing and industrial clients.

MATERIAL TESTING & QUALITY ASSURANCE

NDT TESTING AT CG POWER INDUSTRIAL SOLUTIONS, MALANPUR

BBAPL conducted Rebound Hammer testing at the DT area of CG Power Industrial Solutions, Malanpur, to evaluate the concrete strength and structural condition.

The assessment provided reliable data to support structural evaluation and compliance.

INTEGRATED DESIGN CONFIDENCE

TESTING → ANALYSIS → DESIGN VALIDATION

Data-Backed Structural Design

Test results and historical data directly informed load assumptions, safety margins, strengthening needs, and compliance decisions.

Outcome

Reduced design uncertainty and improved long-term structural reliability across industrial and infrastructure projects.

MAJOR PROJECTS EXECUTED BY BBAPL: MAY 2026

Industrial Projects

JK Tyre, Supreme Industries, CG Power, Teva API, Cadbury, Nova Dairy, BR Ecopet, Maini Scaffold Systems and Tri India.

Government Projects

PWD, NH Division and irrigation-related infrastructure assignments involving geotechnical investigations, soil testing and technical engineering support.

Commercial & Private Projects

GLR Real Estate, RJN Apollo Hospital, Godrej and private development projects involving structural engineering, testing and consultancy services.

Compliance & Safety

Structural design, stability assessment, geotechnical investigations, NDT testing, drainage engineering and NABL-compliant material testing services.

LOOKING AHEAD: JUNE 2026

In June 2026, BBAPL will intensify its focus on structural engineering, design execution, and material testing, delivering precise, code-compliant solutions across industrial, government, and commercial projects.

The month's priorities will center on accelerating project execution, strengthening quality control, and maintaining the highest standards of regulatory compliance, driving safe, efficient, and high-performance infrastructure delivery across every engagement.
