BBAPL MONTHLY NEWSLETTER

JULY 2026

“Trusted by government bodies, industry leaders, and emerging businesses, BBAPL delivers proven expertise.”

In July, Bhargava Building Atelier Private Limited (BBAPL) achieved significant progress across soil testing, structural design, and key client engagements.

These accomplishments reflect the team's technical expertise, disciplined execution, and consistent collaboration in delivering quality engineering solutions throughout the month.

- **Material testing and site evaluations conducted**
- **Design, stability, and technical support delivered**
- **Projects executed in PAN India**
- **Digital presence strengthened through content and outreach**

**37 Active
Projects |
Design, Surveys
& Infrastructure**

**86 Technical Executions | 4
Geotechnical Investigation Projects
| 3 Soil Testing Assignments | 2 NDT
Assessment Projects**

MATERIAL TESTING PERFORMANCE

OPERATIONAL SNAPSHOT

- 86 Technical Activities Logged
- 14 ILC Soil Testing Activities
- 8 Geotechnical Report Preparation Activities
- 2 NDT Assessment Projects

255+ TECHNICAL EXECUTION HOURS

Including soil testing, geotechnical report preparation, laboratory testing, NDT assessments, NABL documentation, CPWD inspection activities, and material testing report preparation.

STRUCTURAL DESIGN HIGHLIGHTS

KEY ENGAGEMENTS

- 37 Active Projects & Opportunities
- Key Clients: Supreme Industries, CG Power, Teva, Godrej, Cadbury, J.B. Mangharam & Tri India
- Core Activities: Structural Design, NDT, Drain & Storm Water Surveys, Industrial Infrastructure Planning, Structural Stability Assessment & Rehabilitation
- Project Scope: Industrial Sheds, Roads, Drainage Systems, Water Tanks, Utility Buildings, Plant Expansion & Infrastructure Development
- Operational Locations: Banmore, Malanpur, Gwalior, Haridwar, Bhopal, Piperseva & Baraghata

STRUCTURAL ENGINEERING & ANALYSIS

11 confirmed projects, 17 proposals under follow-up, and 37 total engineering engagements across industrial, infrastructure, and manufacturing sectors.

INTERIOR FIT-OUT FOR STATE BANK OF INDIA, KHAJURAHO

Creating functional and professional banking environments.

BBAPL executed the interior fit-out works for the State Bank of India, Khajuraho, delivering a well-planned and efficient workspace aligned with the bank's operational requirements.

The project focused on functionality, aesthetics, and user comfort while ensuring a durable and professional interior environment.

STRUCTURAL ASSESSMENT FOR CG POWER AND INDUSTRIAL SOLUTIONS LIMITED

Engineering solutions for reliable industrial
infrastructure.

BBAPL conducted the structural assessment for the proposed development at CG Power and Industrial Solutions Limited, Malanpur.

The assessment evaluated the existing structural system and foundation requirements, with recommendations provided to support safe construction, structural stability, and long-term performance.

MATERIAL TESTING FOR DRDO NCC LTD

**ENSURING MATERIAL QUALITY THROUGH
ACCURATE TESTING AND REPORTING.**

BBAPL conducted testing of 8mm, 10mm, 12mm, 16mm, and 20mm steel reinforcement bars, along with fine aggregate testing, for the DRDO NCC Ltd. project.

Comprehensive test reports were prepared to verify material quality and compliance with applicable standards, supporting quality assurance during project execution.

INTEGRATED DESIGN CONFIDENCE

TESTING → ANALYSIS → DESIGN VALIDATION

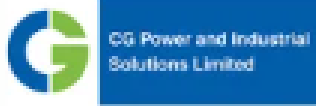

Data-Backed Structural Design

Test results and historical data directly informed load assumptions, safety margins, strengthening needs, and compliance decisions.

Outcome

Reduced design uncertainty and improved long-term structural reliability across industrial and infrastructure projects.

MAJOR PROJECTS EXECUTED BY BBAPL: JULY 2026

Industrial Projects

Industrial infrastructure, shed development, plant expansion, and engineering support for CG Power, Teva API, Godrej, Cadbury, Supreme Industries, J.B. Mangharam Foods, Tri India, DRDO-NCC Ltd., and IOCL.

Infrastructure & Development

Storm water management, drain surveys, internal roads, utility structures, tank development, site planning, and infrastructure improvement projects.

Material Testing Services

Soil, concrete, steel, aggregate, paver block, and NDT testing with NABL-compliant reporting to support quality assurance and project execution.

Structural Engineering Services

Structural design, stability assessments, industrial shed development, strengthening solutions, and engineering consultancy for industrial, commercial, and institutional projects.

LOOKING AHEAD: AUGUST 2026

In August 2026, BBAPL will intensify its focus on structural engineering, geotechnical investigations, non-destructive testing, material testing, and project execution services, supporting the successful delivery of industrial, commercial, residential, and infrastructure projects.

The month's priorities will center on accelerating project execution, strengthening quality assurance, maintaining regulatory compliance, and delivering technically robust engineering solutions that ensure safety, reliability, and long-term performance across every engagement.
