BBAPL MONTHLY NEWSLETTER

AUGUST 2026

“Trusted by government bodies, industry leaders, and emerging businesses, BBAPL delivers proven expertise.”

In August, Bhargava Building Atelier Private Limited (BBAPL) made steady progress across soil investigations, structural engineering, material testing, and project consultancy assignments.

These achievements reflect the team's technical expertise, quality-focused approach, and commitment to delivering reliable engineering solutions.

- **Material testing and site evaluations conducted**
- **Design, stability, and technical support delivered**
- **Projects executed in PAN India**
- **Digital presence strengthened through content and outreach**

MATERIAL TESTING PERFORMANCE

OPERATIONAL SNAPSHOT

- 79 Technical Activities Logged
- 15 Soil Investigation & Testing Activities
- 10 NABL Documentation Activities
- 1 NDT Assessment Projects

258+ TECHNICAL ACTIVITY HOURS

Including laboratory testing, geotechnical investigations, soil testing, NDT assessments, NABL documentation, and technical report preparation.

STRUCTURAL DESIGN HIGHLIGHTS

KEY ENGAGEMENTS

- 34 Projects & Opportunities
- Key Clients: Supreme Industries, CG Power, Teva, Godrej, Cadbury, J.B. Mangharam & Tri India
- Project Scope: Industrial Sheds, Plant Expansions, Utility Buildings, Parking Sheds, Lift Structures, Pipe Yards, Road Development, Storm Water Systems, Tanks & Site Infrastructure
- Operational Locations: Banmore, Malanpur, Gwalior, Haridwar, Piperseva, Baraghata & Danguthina
- Core Activities: Structural Design, Infrastructure Planning, Storm Water Engineering, Stability Assessments, Rehabilitation Design & Technical Documentation

Structural Engineering & Design

34 projects and opportunities across industrial, infrastructure, commercial, and manufacturing sectors.

STRUCTURAL INSPECTION & STABILITY ASSESSMENT

BBAPL inspected 10 buildings and collected the required structural and building-related documents from the Client's HR department.

The inspection and documentation supported the assessment of structural condition, safety, and stability of the buildings.

MATERIAL TESTING FOR RESIDENTIAL PROJECT

ENSURING A STRONG FOUNDATION THROUGH SOIL TESTING

BBAPL conducted soil testing for a proposed residential project in Chetak Puri, Gwalior.

The investigation provided key geotechnical data to support safe, reliable foundation planning.

INTEGRATED DESIGN CONFIDENCE

TESTING → ANALYSIS → DESIGN VALIDATION

Data-Backed Structural Design

Test results and historical data directly informed load assumptions, safety margins, strengthening needs, and compliance decisions.

Outcome

Reduced design uncertainty and improved long-term structural reliability across industrial and infrastructure projects.

MAJOR PROJECTS EXECUTED BY BBAPL: AUGUST 2026

INDUSTRIAL PROJECTS

Industrial sheds, plant expansions, utility structures, and engineering consultancy for Supreme Industries, CG Power, Teva, Godrej, Cadbury, J.B. Mangharam Foods, and Tri India.

MATERIAL TESTING & NDT SERVICES

Material testing, NDT, and structural assessments supporting quality assurance and project compliance.

INFRASTRUCTURE & DEVELOPMENT

Storm water systems, drain surveys, roads, tanks, utility facilities, and site development projects.

STRUCTURAL ENGINEERING SERVICES

Structural design, stability assessments, strengthening solutions, working drawings, and industrial infrastructure development.

LOOKING AHEAD: SEPTEMBER 2026

In September 2026, BBAPL will strengthen its focus on structural engineering, geotechnical investigations, NDT, material testing, and project execution across industrial, commercial, residential, and infrastructure projects.

The month's priorities will center on faster execution, quality assurance, regulatory compliance, and technically reliable solutions that deliver safety, performance, and long-term value.
